
* It is the customer's responsibility to keep track of their internet usage. Our tech support is available to show you how to keep track of your usage if necessary. Please call customer service for details.

How to help Manage Your Bandwidth

Call (907) 222-0844 to setup your bandwidth management account

- 1) Open up Internet Explorer.
- 2) Where you would put the address www.yahoo.com, you want to erase everything in that box, then type in <http://metermaid.adaktu.net:8080> and press enter.
- 3) It will then direct you to a login page with the title **NETFLOW ANALYZER 6**.
 - a) Enter in the username and password that was given to you by Windy City Broadband when you contacted Tech Support.
 - b) Press Enter.
- 4) Click on the underlined name under **IP GROUP NAME**.
- 5) Once there, click on the tab **DESTINATION**.
- 6) From here, you can see your **IP ADDRESS**, your total **TRAFFIC**, and the **PERCENTAGE** of the network pipe you are using at the given dates and times listed above.
- 7) If you click on the down arrow next to the **Today Report**, you can select the time frame that you are interested in.
 - a) **Custom Selection** allows you to set the timeframe you want to view. This is helpful if you are interested in just seeing the current month's usage.

There are many useful tools in this program to look at. It is recommended that you spend some time to surf around the site to get a working feel with this program and what it can show you. If you have any questions about this program or want to know how to use the features, call the Anchorage office and ask for a technician.
